Scholarships Available for Master’s Degree in Rehabilitation Counseling

Federally funded scholarships make this a great time to apply to the rehabilitation counseling graduate program in the School for Global Inclusion and Social Development (SGISD) at UMass Boston, ranked #1 in New England by U.S. News & World Report.

Rehab counselors can anticipate excellent job prospects due to high demand for their professional skills and the current labor market. They support people with disabilities to meet their goals, including finding fulfilling employment. Our program offers two tracks: one in clinical rehabilitation counseling, and one in vocational rehabilitation counseling.

We are jointly accredited by the Council on Rehabilitation Education (CORE) and the Council for Accreditation of Counseling & Related Educational Programs (CACREP).

Our scholarships are funded by the Rehabilitation Services Administration (RSA), part of the US Department of Education. The grant will fund part-time and full-time students from 2016 to 2020. Funding covers 70% or more of tuition and fees, as well as a small stipend.

In return, students “pay back” RSA through work at a state or federal vocational rehabilitation (VR) agency or related organization after graduation. For every year of scholarship, students are required to work for two years in the VR field.
